

On Thursday, April 5, 2018 the State Department of Taxation approved the corrected tax rate to allow the Wood County Auditor's Office to correct an error which occurred in calculating the Perrysburg School District's fixed-sum levy. Each parcel in the Perrysburg School District is being recalculated. Parcel owners who paid the full year tax in January will receive a refund check this summer. Those who have not paid in full will receive an adjustment on their second half tax bill, which is due July 13. The error will be corrected for all taxpayers this year. The Auditor's Office and the Perrysburg School District have been working together on an appropriate fix that is best for all parties involved. Once parcels are recalculated, the reduction will be noted on the Auditor's website: <http://auditor.co.wood.oh.us>. As always, if taxpayers have any questions or concerns, please contact the Wood County Auditor's office directly at 419-354-9150.
